AIEE TRANSACTIONS

for

Volume 63, 1944

PUBLISHED BY THE AMERICAN INSTITUTE OF ELECTRICAL ENGINEERS
33 WEST 39TH STREET, NEW YORK 18, N. Y.

1944
AIEE INDEXES

This pamphlet contains complete multientry indexes covering the entire text content of AIEE regular technical publications, as follows:

1. **Electrical Engineering,** monthly, sent to all members. Contains two parts:

   I. General articles, news, and biographical items.
   II. Transactions section, containing technical-program papers presented at national and District technical meetings.

2. **Supplement to Electrical Engineering—Transactions Section.** Issued in limited quantities at mid-year (June Supplement) and year-end (December Supplement). Contains the technical program papers that could not be accommodated in the monthly Transactions sections of *Electrical Engineering*, plus discussions of all technical-program papers. Price 50 cents per copy.

3. **AIEE Transactions.** Published annually. Contains all approved technical-program papers and related discussions for the calendar year. Consists of Transactions sections from the monthly issues of *Electrical Engineering;* the two semiannual Supplements (as described in item 2 above); and certain other material considered to be of permanent record value. Price $4.00 per copy to AIEE members; $12.00 plus foreign postage to nonmembers.

I. GENERAL MATERIAL
(Pages 3–9)

General articles, news, and biographical items published in the general monthly periodical are indexed as follows:

1. **Subject Index.** Lists all general-interest articles by subjects.

2. **Author Index.** Lists authors of all general-interest articles and "Letters to the Editor."

3. **AIEE News Index.** Lists all news items pertaining to Institute Activities.

4. **Non-AIEE News Index.** Lists all news items "Of Current Interest" not pertaining directly to Institute activities.

5. **Biographical Index.** Lists all personal and obituary items on AIEE members.

Page Allocation by Issues

January	1–42	July	243–280
February	43–76	August	281–322
March	77–118	September	323–354
April	119–160	October	355–392
May	161–202	November	393–424
June	203–242	December	425–460

II. TRANSACTIONS MATERIAL
(Pages 10–24)

Technical-program papers and related discussions are indexed as follows:

1. **Technical-Subject Index.** Lists all technical-program papers and related discussions by subjects.

2. **Author Index.** Lists authors of all technical-program papers and discussions.

Of the total content of the 1944 annual *Transactions*, pages 1–318 and 501–960 inclusive were published in the Transactions sections of *Electrical Engineering* during 1944 as tabulated below; pages 319–500 were published in the June "Supplement to Electrical Engineering—Transactions Section" and pages 961–1504 in the December Supplement.

Page Allocation by Issues

January	1–40	July	501–548
February	41–80	August	549–612
March	81–144	September	613–692
April	145–208	October	693–772
May	209–264	November	773–868
June	265–318	December	869–960
June Supplement	319–500	December Supplement	961–1504

I—GENERAL MATERIAL

(See page 10 for Transactions Material Index)

1. Subject Index

Accuracy of Control Devices for Feeder-Voltage Regulators. (Committee Report) 250–4
Letter 391
Address System, A Shipyard Public-. Aiken 402–04
Aeronautics, The Future of. Spear 325–6
Aids Mining, Fluorescence. Plumb 243–6
Air Traffic Control. Gilbert 119–25
Aircraft, Electric Power in. Rockwell 400–02
Aircraft, Horsepower Meter for. (Letter) MacGahan 200
Aircraft Instruments, Fluorescent Lighting of. Dircksen 247–9
(Aircraft) The Future of Aeronautics. Spear 325–6
Aircraft Transformers—Small and Light. Kilgore 84–8
Alloys, Physical Metallurgy of Copper and Copper-Base. Brace 11–17
A-C Network, Story of the. Kehoe 329–30
America, Electrification for Latin. Howard 43–6
AIEE, The First 60 Years of the. Funk 323–5
Antenna Radiation Patterns, Calculating. Cronshey 331–4
Application of Statistics to Dielectrics. Summers, Ross 405–07
Armature Circuit, Voltage Drop Through the. (Letter) Rush 40
Army Communications Equipment, Enemy. Colton 139–44
Aviation, Radio in. Stanton 215–17

B

Basic Problems Solved in Electric Machinery, Are All the. Liwschitz 47–56
Letter 159
Big Inch Pipe Lines, Electrical Sinews for the. Hyde 1–8
Bush, Vannevar—1943 Edison Medalist 81–4

C

Cabinet, Should There Be an Engineer in the President's 409
Calculating Antenna Radiation Patterns. Cronshey 331–4
Calculation of Fault Currents, Revisions Made to Simplified 65
Canons of Ethics, The ECPD Proposed. Jackson 441–2
Carrier Telegraph Systems. Bramhall 283–6
Centenary of the Morse Telegraph, The. Bibber 433–6
Circuit, Voltage Drop Through the Armature. (Letter) Rush 40
Combustion Gas Turbine, The. Fischer, Meyer 163–9
(Committee Report) Accuracy of Control Devices for Feeder-Voltage Regulators 250–4
Letter 391
Communications Equipment, Enemy Army. Colton 139–44
Conception of Single-Phase Motor Operation, A Physical. Beach 254–63
Control, Air Traffic. Gilbert 119–25
Control Devices for Feeder-Voltage Regulators, Accuracy of. (Committee Report) 250–4
Letter 391
Copper and Copper-Base Alloys, Physical Metallurgy of. Brace 11–17
Currents, Revisions Made to Simplified Fault 65
Curriculums in Electrical Engineering, Postwar. Kloeffler 364–7
Letter 458

D

Degree, The Engineering. (Letters)
Gould 278
Jones 352
Developments in Light Sources, Recent. Millar 126–38
Devices Aid Metallurgical Research, Electronic. Potter 175–85
Devices for Feeder-Voltage Regulators, Accuracy of Control. (Committee Report) 250–4
Letter 391
Dielectrics, Applications of Statistics to. Summers, Ross 405–07
Drawings—An Aid to Production, Trimetric. (Filler) 360

E

Economy for the United States, A Postwar. Chevalier 77–80
ECPD Proposed Canons of Ethics, The. Jackson 441–2
Edison Medalist for 1943, Vannevar Bush 81–4
Education in Wartime, Practical. (Letter) Albach 117
Effect of High-Frequency Fields on Micro-Organisms. Fleming 18–21
Efficient Operation of Hydroelectric Systems. Stirling, Sharpe 395–400
Electric Machinery, Are All the Basic Problems Solved in. Liwschitz 47–56
Letter 159
Electric Power in Aircraft. Rockwell 400–02
Electric-Power Systems, Meteorological Service for. Davison 203–09
Electrical Engineering in the Postwar World:
Part I—Influence of Wartime Developments. Funk 161–3
Part II—Position of the Engineer. Lee 218–20
Part III—Engineering: Handmaiden of Economics. Kellogg 264–6
Part IV—Expanding Horizons. Prince 291–3
Part V—The Electric-Power Industry After the War. LeClair 338–41
Letter 422
Part VI—Welding's Promise of Lower Costs. Lincoln 375–7
Part VII—Aircraft Electricity. Holliday 410–11
Part VIII—Influence of Research on Engineering Developments. Chubb 443–4
Electrical Engineering, Postwar Curriculums in. Kloeffler 364–7
Letter 458
Electrical Sinews for the Big Inch Pipe Lines. Hyde 1–8
Electrically Heated Homes in the Tennessee Valley. Martin 437–40
Electricity, Seagoing. Cornbrooks 170–4
Electrification for Latin America. Howard 43–6
Electronic Devices Aid Metallurgical Research. Potter 175–85
Electronic Protective Systems. Lindsay 367–74
Enemy Army Communications Equipment. Colton 139–44
Engineer, Cultural Training of the. (Letters)
Hinckley 199
Fleischmann 200
Engineer, Faith of the. (Letter) Duff 75
Engineer in the President's Cabinet, Should There Be an 409
Engineering in Wartime. Umansky 8–10
Engineers, Mathematical Training for Young. Powel 63–4
Letter 158
Engineer's Present and Future Responsibilities, The. McClellan 281–2
Enterprise, Industrial Research Under Free. Ruthenburg 210–15
Letters 353, 422
Equipment, Enemy Army Communications. Colton 139–44
Experience With a Heat-Pump System. (Abstract) 361

F

Faraday Medalist—Irving Langmuir 1943 362–4
Fatigue Strength of Welded Joints. Jones 288–90
Fault Currents, Revisions Made to Simplified Calculation of 65
Faults, A Simple Method for Locating Ground. Holbeck 89–92
Feeder-Voltage Regulators, Accuracy of Control Devices for. (Committee Report) 250–4
Letter 391
Fields on Micro-Organisms, Effect of High-Frequency. Fleming 18–21
Fillers (See Miscellaneous Short Items)
First 60 Years of the AIEE, The. Funk 323–5
Fisk Station, New 147,000-Kw Unit at. (Filler) 408
Fluorescence Aids Mining. Plumb 243–6
Fluorescent Lighting of Aircraft Instruments. Dircksen 247–9
Free Enterprise, Industrial Research Under. Ruthenburg 210–15
Letters 353, 422
Future of Aeronautics, The. Spear 325–6
Future Responsibilities, The Engineer's Present and. McClellan 281–2

G

Gas Turbine, The Combustion. Fischer, Meyer 163–9
Germany's Peacetime Industry, Retain 393–4
Ground Faults, A Simple Method for Locating. Holbeck 89–92
Guns, Gyroscopic Stabilizer for Tank. Hanna, Lynn 353–60
Gyroscopic Stabilizer for Tank Guns. Hanna, Lynn 353–60

H

Heat-Pump System, Experience With a. (Abstract) 361
Heated Homes in the Tennessee Valley, Electrically. Martin 437–40
High-Frequency Fields on Micro-Organisms, Effect of. Fleming 18–21
Homes in the Tennessee Valley, Electrically Heated. Martin 437–40
Hydroelectric Systems, Efficient Operation of. Stirling, Sharpe 395–400

I

(Illumination) Recent Developments in Light Sources. Millar 126–38
Inductance When Iron Is Present, Some Aspects of. (Letter) Puchstein 320
Industrial Research Under Free Enterprise. Ruthenburg 210–15
Letters 353, 422
Industry, Retain Germany's Peacetime 393–4
Instruments, Fluorescent Lighting of Aircraft. Dircksen 247–9
Iron Is Present, Some Aspects of Inductance When. (Letter) Puchstein 320

J

Joints, The Fatigue Strength of Welded. Jones 288–90

K

Kehoe, Arthur H., 1943 Lamme Medalist 327–30
Kilgore Bill, A Letter on the. Bush 57–62
Letter 198
Kilgore Bill, Societies Oppose 62

L

Lamme Medalist, Arthur H. Kehoe—1943 327–30
Langmuir, Irving—1943 Faraday Medalist 362–4
Latin America, Electrification for. Howard 43–6
Letter on the Kilgore Bill, A. Bush 57–62
Letter 198
Letters to the Editor:
A Letter on the Kilgore Bill. Upson 198
Accuracy of Control Devices for Feeder-Voltage Regulators. Freeman 391
Are All the Basic Problems Solved in Electric Machinery? McFarland 159
Cultural Training of the Engineer
Hinckley 199
Fleischmann 200
Electric-Power Industry After the War, The. Brown 422
Engineering Degree, The
Gould 278
Jones 352
"Faith of the Engineer." Duff 75
Horsepower Meter for Aircraft. MacGahan 200
Industrial Research Under Free Enterprise
Worth 353
Harris 353
Dwyer 353
Ruthenburg 422
Deyoe 423
Mathematical Training for Young Engineers. Boswell 158
Mercury Thermometers in 60-Cycle Fields. Taylor 241
Postwar Curriculums in Electrical Engineering. Abbott 459
Practical Education in Wartime. Albach 117

Some Aspects of Inductance When Iron Is Present. Puchstein....320
Symbol Standardization Needed. Ranger....158
TVA Releases Annual Report. Jansky....159, 200
Voltage Drop Through the Armature Circuit. Rush....40
Wigwags, Zips, and Zooms. Burnett....278
Light Sources, Recent Developments in. Millar....126–38

MEETINGS, DISTRICT EXECUTIVE COMMITTEE:
Canada....108
Great Lakes....25
Meetings, Future AIEE....26, 66, 108, 147, 186, 221, 269, 298, 342, 380, 412, 447
MEETINGS, NATIONAL:
Los Angeles Technical, 1944
Tentative Program....295
To Be Held....295
Well Received in Aircraft Center....378
Will Reflect Aircraft Interest....267
Summer National Technical, 1944
Analysis of Registration....297
Annual Meeting....187, 298
Aviation and Industrial Problems Top Summer Meeting Program....297
Conferences, Reports of....307
Delegates Conferences Feature Expanded Clinic Plan....300
Lamme and Faraday Medals Presented....298
Memorial Plaza, St. Louis, Mo. (Photo)....221
Preliminary Arrangements....145
Program to Be Largest in the History of the Institute....221
Sections Clinic, Larger....303
Sections Clinics, Smaller....304
Tentative Technical Program....222
Three Anniversaries Celebrated at St. Louis General Session....297
War and Postwar Topics Scheduled....187
Winter National Technical, 1944
Administrative Problems of the ASTP and NCTP Discussed....101
Analysis of Registration....94
Civic Affairs, Co-operation Theme of Conference on....104
Colton Describes Enemy Communications Equipment....107
Conferences Held on Temperature Ratings of Continuous-Duty and Intermittent Machines....96
Electrical Measurements Subject of Two Sessions....99
Employment Conditions, Special Committee Authorized to Study....107
Forecasting of Load Demands Occupies Application Conference....98
Insulating Oils and Cable Saturants Reviewed, Year's Work on....106
Joint Session on Generation, Transmission, and Distribution....104
Lighting Progress and Seeing Discussed At Conference....108
Power Application Conference, Needs of Industry Stressed at....100
Relaying Conference, Principles and Performance Covered at....102
Safety Committee Outlines Activities for the Year....105
Sections Committee Meets....107
Standards and Performance Topics of Industrial-Control Conference....103
Standards Committee Adopts Two New Standards....105
Teaching Aids at AIEE Meeting for Navy V-12 Training Program....106
Tentative Program Announced....22
Transformer Session, Loading and Protection Discussed at....106
Turbogenerator Characteristics Discussed....102
Voltage Transients in Arc-Furnace Circuits, Committee Reports on....107
Well-Rounded Meeting; Beat Attended Since 1941....94
Winter National Technical, 1945
To Feature Wartime Developments....443
Members for Life, Additions to List of....268

Membership Letter . . . 379
Membership, Transfers and Elections . . . 32, 70, 112, 150, 195, 236, 272, 318, 343, 387, 416, 450
Message From the President, The Future of the Institute—A. Powel . . . 294

N

Nominating Committee for 1943–44 Announced . . . 25

O

Officers and Committees for 1943–44:
Branches . . . 347
District . . . 346
National . . . 344
Section . . . 348
Officers for 1944–45 Announced at St. Louis Meeting . . . 268
(Officers) Official Nominees Announced for 1944–45 . . . 65
Officers to Be Nominated for 1945 Election, AIEE . . . 379

P

Prizes (See Awards)
Publication Changes, Expanded Meeting Programs Require . . . 342

S

Scholarships (See Awards)

SECTION ACTIVITIES:
Annual Report for 1943–44 . . . 224
Beaumont Subsection of Houston Section Flourishes . . . 190
Dayton, Active Aeronautics Group Interests . . . 190
Lee Explains Plane-Speed Recorder to Akron Section . . . 145
Logan Addresses AIEE Sections on Illumination Service Tour . . . 189
Maryland, Latest Refinements of Plane Design Described to . . . 190
Milwaukee Membership Shows Steady Increase Since 1939 . . . 108
Milwaukee Technical Discussion Groups Enter Fourth year . . . 66
Milwaukee Meeting, Use of Magnesium in Planes Topic of . . . 25
New York Section, Postwar Electric-Power Development Debated by . . . 187
Philadelphia, Electronics in Peacetime Discussed in . . . 412
Philadelphia Elects Executive Officers for 1944–45 . . . 269
Philadelphia, 60th Anniversary of First Meeting Celebrated in . . . 447
Postwar Electric-Power Development Debated by New York Section . . . 187
Refinements of Plane Design Described to Maryland Section, Latest . . . 190
Subsection Formed in Ottawa . . . 225
Wilmington Subsection Plans Winter Program . . . 412
"Simplified Calculation of Fault Currents," Revisions Made to . . . 65

STANDARDS:
Aeronautical Standardization, AIEE to Participate in . . . 269
AIEE Joins SAE and NASC on Aeronautical Standards . . . 412
American Standard C19, Industrial Control Apparatus . . . 145
American Standard Z32.10, Graphical Symbols for Electronic Devices . . . 145
Bushing Standard Approved as American Standard . . . 145
Modification and Supplement to AIEE Standard 45 . . . 145
New Standard, American Standard C62.1 . . . 269
Standards for Capacitance Potential Devices and Outdoor Coupling Capacitors . . . 145

STUDENT BRANCH ACTIVITIES:
Annual Report for 1943–44 . . . 224
Subcommittee Reviews Scope of AIEE Technical Committees . . . 66
Supplement Announced, Contents of June 1944 . . . 267
Supplement, Contents of December 1944 . . . 445

T

Technical Committees, Subcommittee Reviews Scope of AIEE . . . 66

4. Non-AIEE News Index

Accidents is Goal for 1944, 40 Per Cent Decline in Industrial . . . 197
Allis-Chalmers Manufacturing Company
Creates New Division . . . 238
American Co-ordinating Committee on Corrosion Elects Officers . . . 351
American Institute of Mining and Metallurgical Engineers
Elects 1945 Officers . . . 457
Raise Member Dues . . . 457
American Society for Testing Materials
Develops Bibliography on Electrical Contacts . . . 157
Forms Committee on Metal Powders and Their Products . . . 239
Officers Announced . . . 351
Specifications for Glass Insulators . . . 422
To Publish 1945 Issue of Standards in 1944 . . . 421
American Society of Civil Engineers
Adopts Procedure for Collective Bargaining . . . 34
American Society of Heating and Ventilating Engineers
AIEE Members Invited to Discuss ASCE Paper . . . 320
Assigns Field Secretary to Western Area . . . 457
Pamphlet Describes Research Program . . . 422
American Society of Mechanical Engineers
List of Process Control Terms Issued . . . 116
American Society of Refrigerating Engineers
Announces Grants for Refrigeration Research . . . 457
American Standards Association
Approves Two Standards on Electrical Insulating Materials . . . 241
Approves War Standard for Glass Radio Insulators . . . 75
Co-ordinates Symbols for Electrical Designs . . . 240
Industrial Protection From X Rays Studied . . . 350
Issues Five New and Revised War Standards . . . 157
Moves Its Headquarters . . . 390
Publishes New List of Standards . . . 75
Receives Distinguished Service Award, (Photo) . . . 389
Standard for Terminal Markings Revised by ASA and NEMA . . . 351
To Join Allied Nations Group Announced at Silver Anniversary . . . 36
Two Radio Standards Issued . . . 241
American Welding Society
Announces 1945 Officers . . . 457
Effect of Welding on Ductility Now Predetermined . . . 240
Receives Ordnance Distinguished Service Award . . . 457
Association of Iron and Steel Engineers Establish New Award . . . 157
Awards (Includes Medals, Citations, Fellowships, Scholarships, and Prizes)
AIEE Establish New Award . . . 157
Backeland, $1,000 Award for Young Chemists Honors Doctor . . . 389
Daniel Guggenheim Medal Awarded Lawrence D. Bell . . . 457
Faraday Medal Awarded to Irving Langmuir . . . 158
Faraday Medal Presented . . . 299
Hoover Medal for 1944 Awarded to R. E. Flanders . . . 422
Jewett Fellowships, Applications Available for . . . 458
John Fritz Medal Awarded John L. Savage . . . 457
Research Fellowships Established in F. B. Jewett's Name . . . 421
Stanton Hertz Award Established . . . 239
Welding Award Papers Placed in Ohio State Library . . . 391

B

Backeland, $1,000 Award for Young Chemists Honors Doctor . . . 389
Baruch-Hancock Report, War and Postwar Adjustment Policies Recommended in . . . 154
Bell System Reports Extended and Improved Service in 1943 . . . 155
Biographical Index (Includes All Personal and Obituary Items on Nonmembers)
Backeland, Leo H. . . . 155
Bell, Lawrence D. . . . 457
Cattell, James McKeen . . . 117
Flanders, R. E. . . . 422
Langmuir, Irving . . . 158
Savage, John L. . . . 457
Thompson, M. F. . . . 239
Bombardiers Practice in Ground Units, (Photo) . . . 456
Brazil Increases Motor Production . . . 114
Brazil's New National Motor Factory Begins Production . . . 115

C

Canadian Electrical Code in Process of Revision . . . 352
Colleges Prepare for Admission Problems of Veterans . . . 350
Colleges, Veteran Program Augurs Postwar Boom for . . . 319
Corrosion Engineers, New Association Organized by . . . 40

D

Dielectric-Heating Research Begun at Columbia and Illinois . . . 239
D-C Resistance Welder Uses Storage Batteries, New . . . 114
Doherty, Robert E., Receives Host of Honors . . . 157

E

Edison Electric Institute Expands Its Board . . . 390
Electric Rates Reported by FPC . . . 320
Electron Microscope Society Holds First Meeting . . . 74
Engineering Foundation
Report for 1942–43 Available in Booklet Form . . . 158
Report Issued; Officers Elected . . . 37
Selects Officers for 1945 . . . 458
Engineers' Council for Professional Development
Continuing Progress Reported at 12th Annual Meeting . . . 452
Issues Pamphlet on Joint Local Groups . . . 241
Subcommittee Reports on Technical-Institute Education . . . 277
Wickenden's "The Second Mile" Republished by ECPD . . . 197
Engineers' Digest Issued, American Edition of . . . 74

F

Fellowships (See Awards)
Fluorescent Lamp Designed, Tiny . . . 74
Fluorescent Lamp Now Available, Instant-Starting 40-Watt . . . 156
Foodstuffs, High-Frequency Electric Field Used in Processing . . . 276
Foreign Markets for U. S. Electrical Goods Estimated, Postwar . . . 115

I

Illinois Professional Engineering Act Held Unconstitutional . . . 114
India Technical Association Organized in the United States . . . 390
Indoor Climate Institute Program Promotes Advances in Heating and Cooling . . . 40
Institute of Radio Engineers
Elects Officers for 1945 . . . 458
Publishes Facsimile Standards . . . 198
Insulation Promises Higher Ratings, New Electrical . . . 319
International Illumination Conference Report Available . . . 74
IPCEA Specifications for Cable Revised . . . 75
Iron and Steel Engineers Establish New Award . . . 157

J

Jewett, F. B., Research Fellowships Established in Honor of . . . 421

K

Kerite Company Stock Purchased . . . 421

L

Latin America, New Magazine for . . . 350
Library, Engineering Societies
Board and Officers Elected; Annual Report Issued . . . 38
Lighting Handbook Issued by Westinghouse Lamp Division . . . 74
Lightning Frequency Registered by Plastic Device . . . 39
Literature, Engineering . . . 41, 75, 118, 159, 201, 242, 278, 322, 353, 391, 423, 459

M

Magazine for Latin America Issued, New . . . 350
Medals (See Awards)
Meetings, of Other Societies, Future . . . 40, 74, 117, 157, 198, 240, 278, 320, 352, 389, 421, 458
Midwest Power Conference to be Held April 13–14 . . . 116
Morse, Railroads and Telegraph Companies to Honor . . . 197
Motor Developed, 120,000-Rpm. . . . 114

N

National Association of Corrosion Engineers Organized . . . 40

National Association of Manufacturers
Advises Training Foremen to Readjust Veterans to Industry....350
National Bureau of Standards Frequency Broadcast, Changes Announced in....114
National Council of Technical Schools Formed....158
National Electrical Manufacturers Association
Adopts Induction- and Dielectric-Heating Standards....240
Aircraft Electrical Council Formed....195
Standard for Terminal Markings Revised by ASA and NEMA....351
(National Electronics) Chicago Conference Presages Expanding Electronic Applications....418
National Electronics Conference to Meet in Chicago....240
National Postwar Conference, 16 Groups Inaugurate....156
National Research Council
Insulation Research (1943) Reviewed by NRC Chemistry Committee....390
Scientific Personnel Needed for New War Projects....320

II—TRANSACTIONS MATERIAL

(See page 2 for explanation)

1. Technical-Subject Index

Accessory Vibration, Aircraft-Engine. Tyler ..... 1334–49; disc. 1487

Accessory-Vibration Investigations, Aircraft-Electric. Miller ..... 1283–90; disc. 1486

Action on Reversing of Thyratron Motor Control, Inverter. Palmer, Leigh ..... 175–84; disc. 494

Actuator Equipment, Functional Design of Aircraft Electric. Gagnier ..... 813–15; disc. 1464

Adjustable Phase-Angle Discrimination, A Distance Relay With. Goldsborough ..... 835–8; disc. 1471

Advances in Aircraft Tachometer Design, Recent. Ballard, Hall ..... 646–8; disc. 1421

Aid Design, Fundamentals of Hearing-. Penn 744–9

Aids to Quality Control in the Manufacture of Aircraft Generators. Potter ..... 525–9; disc. 1358

Air Circuit Breaker for 15,000-Volt Services, A Magnetic-Type. Linde, Wyman ..... 140–4; disc. 453

Air Circuit Breaker for Steel-Mill Service, A 500,000-Kva 7.5-Kv. Dickinson ..... 742–5; disc. 450

Air Circuit Breakers, Improved Selective Tripping of Low-Voltage. West ..... 608–10; disc. 1431

Air Conditioning, Electrothermal Space Heating and. Krueger ..... 718–22; disc. 1434

Air-Cooled Transformers, Design and Operating Characteristics of Modern Dry-Type. Satterlee ..... 701–04; disc. 1445

Air or Conduit, Current Rating of Cables as Affected by Mutual Heating in. (IPCEA Committee Report) ..... 543–53; disc. 824, 1352

(Air Transportation) A New High-Frequency Capacitor. Allison, Bevan ..... 915–16; disc. 1464

(Air Transportation) A Unique Moving-Magnet Ratio Instrument. Sias, Fisk ..... 634–6; disc. 1430

(Air Transportation) Altitude Rating of Electric Apparatus. Lebenbaum ..... 955–60; disc. 1485

(Air Transportation) Analysis of High-Frequency Ignition Circuits. Robinson 916–19

(Air Transportation) Auxiliary-Power-Plant Requirements. O'Neil 682–4

(Air Transportation) Considerations in Servomechanism Design. Herwald 871–6

(Air Transportation) Electric Circuits and the Magnetic Compass. Burt, Beck 24–6

(Air Transportation) Electrical Control in Automatic Pilots. Young, Lyndi, Boyston ..939–43; disc. 1500

(Air Transportation) Electrically Heated Clothing. Woring 1304–13

(Air Transportation) Electrically Operated Gyroscopic Instruments. Knoel 715–8

(Air Transportation) High-Altitude Brush Problem. Ramadanoff, Glass ..... 825–30; disc. 1489

(Air Transportation) Historical Development of Electric Connectors. Neiling 925–8

(Air Transportation) Magnesyn Remote Indication. Childs 679–82

(Air Transportation) Potential Breakdown of Small Gaps Under Simulated High-Altitude Conditions. De-Lorso ..... 109–12; disc. 454

(Air Transportation) Sciderless Terminals. Weiss, Balsbaugh ..... 930–9; disc. 1490

(Air Transportation) Solenoid-Operated Control Valves. Eckel, Wiegarver 911–14

(Air Transportation) The Gyrosyn Compass. Esval ..... 857–60; disc. 1502

(Air Transportation) The Scientific Basis for the New British System of Cockpit Lighting. Calvert ..869–70

(Air Transportation) The Testing of Brushes for Life and Performance Under Various Altitude Conditions. Herman ..... 929–33; disc. 1491

(Air Transportation) Very High-Frequency Radio-Noise Elimination. Owen 949–54

Aircraft—a British View, A-C Supplies for Services in Large. Earnshaw, Shearer 1314–20

Aircraft, A-C Contactors for. Russell, Charbonneau ..... 613–16; disc. 1364

Aircraft Alternator, A 40-kva 400-Cycle. Keneipp, Veinott ..... 816–21; disc. 1460

Aircraft and Its Application to Fault-Current Calculations, Impedance of 400-Cycle Three-Phase Power Circuits on Large. Chappuis, Olmsted ..... 1213–20; disc. 1496

Aircraft Applications, Solenoid-Operated Hydraulic Valves for. Goepfrich 866–8

Aircraft, Basic Considerations in Selection of Electric Systems for Large. Boice, Lewyn ..277–87; disc. 478

Aircraft, Basic Considerations in the Selection of Generators and Batteries for. Cobb, Winters ..... 889–93; disc. 1494

Aircraft, Brief Survey of Power-Supply Developments on British. Carter ..... 806–07; disc. 1503

Aircraft Cable, A-C and D-C Short-Circuit Tests on. Cunningham, Davidson ..... 961–9; disc. 1359

Aircraft Cable, Requirements for Low-Voltage. Hedges ..... 808–10; disc. 1473

Aircraft, Carbon-Pile Voltage Regulators for. Neild ..... 839–43; disc. 1460

Aircraft Differential-Voltage Cutout, An. Walley ..... 632–4; disc. 1365

Aircraft, Dimensional Studies of Lightweight Motors for. Morrill 698–701

Aircraft, D-C Arc Interruption for. Quill, Rader ..... 883–8; disc. 1472

Aircraft-Electric-Accessory-Vibration Investigations. Miller ..... 1283–90; disc. 1488

Aircraft Electric Actuator Equipment, Functional Design of. Gagnier ..... 813–15; disc. 1464

Aircraft Electric Apparatus With Particular Reference to Carbon Brushes, New Test Chambers for. Summers, Settle ..... 1205–12; disc. 1491

Aircraft, Electric Automatic Pilots for. Halpert, Ewald ..... 861–6; disc. 1501

Aircraft, Electric Connections on. Stebbins, Taylor ..... 706–11; disc. 1473

Aircraft Electric-Equipment Maintenance, Airline. Petrasek 900–05

Aircraft, Electric Gun Turrets for. Thompson ..... 799–802; disc. 1475

Aircraft Electric Motors, One Type of Rotary Magnetic Clutch and Its Associated Brake Used on. Andrews, Shanely ..... 893–5; disc. 1477

Aircraft Electric Motors, Requirements for. Siefkin 810–13

Aircraft Electric-Supply Systems, Present D-C. Anderson, Crary, Schultz ..... 265–72; disc. 484

Aircraft Electric System, A 120-Volt D-C. Cobb ..... 1327–34; disc. 1495

Aircraft Electric Systems as a Function of Altitude, Corona in. Wilson ..... 189–94; disc. 457

Aircraft Electric Systems, Differential Generator Control Relay for D-C. Crever 589–93

Aircraft Electric Systems, Higher-Voltage D-C. Berry, Dallas ..... 843–9; disc. 1497

Aircraft Electric Systems, Instrumentation of 400-Cycle. Corson, Stimson, Soley ..... 830–5; disc. 1501

Aircraft, Electric-Wiring Installations in British. Horn 896–900

Aircraft Electrical Horizons. Godsey, Berry, Holliday ..... 821–4; disc. 1503

Aircraft, Electrically Driven Gyroscopes for. Witherow, Hansen 204–08

Aircraft Elements, Plastics in. Cooper 1220–6

Aircraft-Engine-Accessory Vibration. Tyler ..... 1334–49; disc. 1487

Aircraft Engine, Design of an Ignition System for an 18-Cylinder. Harkness ..... 1321–7; disc. 1467

Aircraft-Engine Torque Instruments. Godsey, Langer ..... 686–90; disc. 1457

Aircraft Flight Control, Application of Electronics to. Gille, Kutzler ..... 849–53; disc. 1501

Aircraft Fuel Tanks, Totalizing Contents of. Macintyre ..... 663–5; disc. 1443

Aircraft Fuses Must Protect, Lessons ..581–5; disc. 1368

Aircraft Generators, Aids to Quality Control in the Manufacture of. Potter ..... 525–9; disc. 1358

Aircraft Generators, Blast-Tube Cooling for. Veinott ..... 520–5; disc. 1463

Aircraft Generators, Design Considerations for D-C. Miner ..... 1234–40; disc. 1459

Aircraft Generators, Testing. Keneipp 105–09

Aircraft Gyroscopes, Damping Cylinders for. Sias, Wright 979–84

Aircraft Instrumentation, Influence of Electricity on. Savage ..... 802–05; disc. 1501

Aircraft Instruments to Meet War Service, Design Considerations in. Savage, Whittenton ..... 992–8; disc. 1419

Aircraft Insulation, Effect of Altitude on Electric Breakdown and Flashover of. Berberich, Moser, Stiles, Veinott ..... 345–54; disc. 458

Aircraft Inverters Supplying Large Single-Phase Loads, A Unit for Balancing the Voltages of Three-Phase. Wimpie ..... 532–5; disc. 1358

Aircraft, Lighting Required for Commercial-Airline. Petrasek ..... 593–8; disc. 1456

Aircraft Motors, Design Considerations of 400-Cycle. Sawyer ..... 877–9; disc. 1464

Aircraft Motors, Inherent Overheating Protection of D-C. Veinott 920–5

Aircraft Motors, Problems in Applying Protectors to Electric. Buell 1206–9

Aircraft, Paralleling and Regulation of 24–28-Volt D-C Generators in Multiengine. Siegal, DeCoursey 854–7

Aircraft, Peak Voltages With D-C Arc Interruption for. Phillips, Mischel 944–8

Aircraft Position Lights, The Development of. Vinal ..... 796–8; disc. 1493

Aircraft, Radio-Noise Elimination in Military. Weinstein, Howell, Lowe, Winter ..... 793–5; disc. 1466

Aircraft-Radio Power Supply, Alternating Versus Direct Current for. Fritz, Hooper ..... 1227–33; disc. 1466

Aircraft Signal System. Rugge ..... 3–5; disc. 455

Aircraft, Some Aspects of the Application of Induction Motors to. Braun ..... 769–72; disc. 1476

Aircraft Storage-Battery Design. Rupp ..... 773–7; disc. 1381

Aircraft Structures, Electric-Circuit Burning-Clear and Damage Phenomena on. Foust, Hutton ..... 198–204; disc. 457

Aircraft Systems, Electric-Circuit Fault-Protective Principles as Applied to D-C. Kaufmann ..... 333–44; disc. 482

Aircraft Tachometer Design, Recent Advances in. Ballard, Hall ..... 646–8; disc. 1421

Airline Aircraft Electric-Equipment Maintenance. Petrasek 900–05

Airline Aircraft, Lighting Required for Commercial. Petrasek ..... 593–8; disc. 1456

Airplane Engine and Propeller Test-Cell Lighting. Tuck ..... 1264–70; disc. 1493

Airplane-Engine Ignition Systems, Battery Booster Coil for. Alvino ..... 672–3; disc. 138

Airplane Lighting Service, Gaseous-Discharge Lamps for. Beggs ..... 760–2; disc. 1456

Airplanes, Cables Used for Transmitting Electric Energy in. Peters, Phillips, Kronstein, Jealous ..... 1270–82; disc. 1474

Alloys on Design Trends of Electrical Instruments, Influence of Improved Magnetic. Wilson, Whittenton ..... 100–04; disc. 461

A-C and D-C Short Circuit Tests on Aircraft Cable. Cunningham, Davidson ..... 961–9; disc. 1359

A-C and D-C Starters by Means of Fuses and Circuit Breakers, The Degree of Short-Circuit Protection Afforded Small Low-Voltage. Jones ..... 611–12; disc. 1408

A-C Contactors for Aircraft. Russell, Charbonneau ..... 613–16; disc. 1364

A-C Generators With Suddenly Applied Loads, Regulation of. Harder, Cheek ..... 310–18; disc. 490

A-C Potentiometer, A Multiplied-Deflection. Marshall ..... 77–80; disc. 460

A-C Power-Distribution Systems, Fault Protection on Shipboard. Rickover, Ross ..... 1109–20; disc. 1429

A-C Supplies for Services in Large Aircraft—a British View, Earnshaw, Shearer 1314–20

Alternating Currents, An Instrument for the Measurement of Large. Richter 38–40

Alternating Versus Direct Current for Aircraft-Radio Power Supply. Fritz, Hooper ..1227–33; disc. 1466

Alternator, A 40-Kva 400-Cycle Aircraft. Keneipp, Veinott ..... 816–21; disc. 1460

Altitude Brush Problem, High-. Ramadanoff, Glass ..... 825–30; disc. 1489

Altitude Conditions, Potential Breakdown of Small Gaps Under Simulated High-. DeLorso ..... 109–12; disc. 454

Altitude Conditions, The Testing of Brushes for Life and Performance Under Various. Herman ..... 929–33; disc. 1491

Altitude, Corona in Aircraft Electric Systems as a Function of. Wilson ..... 189–94; disc. 457

Altitude on Electric Breakdown and Flashover of Aircraft Insulation, Effect of. Berberich, Moser, Stiles, Veinott ..... 345–54; disc. 458

Altitude on Impulse and 60-Cycle Strength of Electrical Apparatus, Effect of. Bellaschi, Evans ..... 236–41; disc. 442

Altitude Rating of Electric Apparatus. Lebenbaum ..... 955–60; disc. 1485

American Telegraphy After 100 Years. d'Humy, Howe ..... 1014–32; disc. 1386

Analysis of High-Frequency Ignition Circuits. Robinson 916–19

Analysis of Rectifier Circuits. Christensen, Willis, Herskind 1048–58

Analysis of the Four-Phase System, Symmetrical-Components. Boyajian ..... 48–51; disc. 426

Analysis to Determine the Optimum Bussing Arrangements and Transmission Capabilities at Grand Coulee, Hoard, Bibb ..... 1249–64; disc. 1478

Analyzer, A New Differential. Kusko, Peterson ..... 221–9; disc. 439

Anesthetized Men, Study of Artificial Respiration on. Kouwenhoven, Hooker, York ..... 1–2; disc. 446

Apparatus, Altitude Rating of Electric. Lebenbaum ..... 955–60; disc. 1485

II—TRANSACTIONS MATERIAL

Apparatus, Effect of Altitude on Impulse and 60-Cycle Strength of Electrical. Bellaschi, Evans ..... 236–41; disc. 442

Apparatus With Particular Reference to Carbon Brushes, New Test Chambers for Aircraft Electric. Summers, Settle ..... 1205–12; disc. 1491

Application Charts, Current-Transformer Output and. Koller ..... 573–7; disc. 1422

Application of Electronics to Aircraft Flight Control. Gille, Kutzler ..... 849–53; disc. 1501

Applications, A New Frequency Relay for Power-System. Carlin, Blackburn ..... 553–7; disc. 1421

Approach to the Consideration of Power-Distribution-System Costs, A Method of. Falls ..... 1078–84; disc. 1377

Arc-Furnace Circuits, Voltage Transients in. (Committee Report) ..... 563–8; disc. 1435

Arc Furnaces, Electronic Regulator for. Reilly, Valentine 601–04

Arc Interruption for Aircraft, D-C. Quill, Rader ..... 883–8; disc. 1472

Arc Interruption for Aircraft, Peak Voltages With. Phillips, Mitchel 944–9

Arc Interruption—II, The Geometry of Current-Zero Phenomena. Boehne ..... 375–87; disc. 447

Armature Connection for a D-C Shunt Motor, Industrial Control—Shunted. Leland, Rader ..... 617–19; disc. 1410

Arrangements and Transmission Capabilities at Grand Coulee, An Analysis to Determine the Optimum Bussing. Hoard, Bills ..... 1259–64; disc. 1478

Artificial Respiration on Anesthetized Men, Study of. Kouwenhoven, Hooker, York ..... 1–2; disc. 446

Aspects of the Application of Induction Motors to Aircraft, Some. Braun ..... 769–72; disc. 1476

Asymmetrical Loading of Three-Phase Three-Winding Transformer Banks, Desimone ..... 27–9; disc. 444

Asymmetrical Stator as a Means of Starting Single-Phase Induction Motors, The. Baum ..... 245–50; disc. 496

Automatic Control and Switching Equipment for Capacitor Banks and Its Application. Schroeder, Bloomquist ..... 649–54; disc. 1440

Automatic Pilots, Electrical Control in. Young, Lynch, Boynton ..... 939–43; disc. 1500

Automatic Pilots for Aircraft, Electric. Halpert, Eaval ..... 861–6; disc. 1501

Automatic Switching, Extending the Use of Shunt Capacitors by Means of. Cuttino ..... 674–8; disc. 1439

Automatic Ticketing of Telephone Calls. Friend ..... 81–3; disc. 472

Auxiliary-Power-Plant Requirements. O'Neil 682–4

B

Balancing the Voltages of Three-Phase Aircraft Inverters Supplying Large Single-Phase Loads, A Unit for. Wimpie ..... 532–3; disc. 1358

Banks and Its Application, Automatic Control and Switching Equipment for Capacitor. Schroeder, Bloomquist ..... 649–54; disc. 1440

Banks, Asymmetrical Loading of Three-Phase Three-Winding Transformer. Desimone ..... 27–9; disc. 444

Basic Considerations in the Selection of Electric Systems for Large Aircraft. Boice, Levoy ..... 279–87; disc. 478

Basic Considerations in the Selection of Generators and Batteries for Aircraft. Cobb, Winters ..... 889–93; disc. 1494

(Basic Sciences) Formulas for Calculating Short-Circuit Forces Between Channels Located Back to Back. Higgins 710–12

(Basic Sciences) Formulas for the Four-Terminal Network Parameters of Uniform Ladder Networks. LePage 604–08

(Basic Sciences) Some Aspects of Inductance When Iron is Present. Rader, Litsicser ..... 138–9; disc. 431

(Basic Sciences) Symmetrical-Components Analysis of the Four-Phase System. Boyajian ..... 48–51; disc. 426

(Basic Sciences) The Computation of Magnetic Field Strength of Round Coils of Small Cross Section. Dwight, Peters 684–5

Basis for the New British System of Cockpit Lighting, The Scientific. Calvert 869–70

Batteries for Aircraft, Basic Considerations in the Selection of Generators and. Cobb, Winters ..... 889–93; disc. 1494

Battery Booster Coils for Airplane-Engine Ignition Systems. Alvino ..... 672–3; disc. 1381

Battery Design, Aircraft Storage. Rupp ..... 773–7; disc. 1381

Behavior Factors of Rectifier-Driven D-C Motors. Siegfried ..... 530–3; disc. 1357

Bell System, Telegraphy in the. Duncan, Parker, Pierce ..... 1032–44; disc. 1504

Bibliography of Relay Literature 1940–1943 705–09

Blast-Tube Cooling for Aircraft Generators. Vrisott ..... 330–5; disc. 1463

Board of Directors, Report of the 1518–31

Booster Coils for Airplane-Engine Ignition Systems, Battery. Alvino ..... 672–3; disc. 1381

Brake Used on Aircraft Electric Motors, One Type of Rotary Magnetic Clutch and Its Associated. Andrews, Shanely ..... 895–8; disc. 1477

Breakdown and Flashover of Aircraft Insulation, Effect of Altitude on Electric. Berberich, Moses, Stiles, Veinott ..... 345–54; disc. 458

Breakdown of Small Gaps Under Simulated High-Altitude Conditions, Potential. DeLerno ..... 109–12; disc. 456

Breaker for 15,000-Volt Services, A Magnetic-Type Air Circuit. Linde, Wyman ..... 140–4; disc. 453

Breaker for Steel-Mill Service, A 500,000-Kva 7.5 Kv Air Circuit. Dickinson ..... 242–5; disc. 450

Breaker, Tests of 230-Kv High-Speed Reclosing Oil Circuit. Schwager ..... 784–8; disc. 1468

Breakers, A Pneumatic Mechanism for Outdoor Oil Circuit. Linde, Rietz ..... 543–6; disc. 1428

Breakers for Rapid Reclosing Duty, High-Voltage Oil Circuit. Hill, Leedi ..... 113–18; disc. 452

Breakers, Improved Selective Tripping of Low-Voltage Air Circuit. West ..... 608–10; disc. 1431

Breakers, Protection of Large D-C Machines by Means of High-Speed Circuit. Housley, Jensen ..... 637–40; disc. 1428

Breakers, The Degree of Short-Circuit Protection Afforded Small Low-Voltage A-C and D-C Starters by Means of Fuses and. Jones ..... 611–12; disc. 1408

Brief Survey of Power-Supply Developments on British Aircraft. Carter ..... 806–07; disc. 1503

British Aircraft, Brief Survey of Power-Supply Developments on. Carter ..... 806–07; disc. 1503

British Aircraft, Electric Wiring Installations in. Horn 896–900

British System of Cockpit Lighting, The Scientific Basis for the New. Calvert 869–70

British View, A-C Supplies for Services in Large Aircraft—a. Earnshaw, Shearer 1314–20

Brush Problem, High-Altitude. Ramadanoff, Glass ..... 825–30; disc. 1489

Brushes for Life and Performance Under Various Altitude Conditions, The Testing of. Herman ..... 929–33; disc. 1491

Brushes, New Test Chambers for Aircraft Electric Apparatus With Particular Reference to Carbon. Summers, Settle ..... 1205–12; disc. 1491

Burning-Clear and Damage Phenomena on Aircraft Structures, Electric-Circuit. Foust, Hutton ..... 198–204; disc. 457

Busses for Generating and Transmission Stations, Ring. Michelson, Galassini ..... 665–9; disc. 1372

Bussing Arrangements and Transmission Capabilities at Grand Coulee, An Analysis to Determine the Optimum. Hoard, Bills ..... 1259–64; disc. 1478

C

Cable, A-C and D-C Shore-Circuit Tests on Aircraft. Cunningham, Davidson ..... 961–9; disc. 1359

Cable and Radiotelegraph Communications, Developments in the Field of. Pratt, Roosevelt ..... 1044–7; disc. 1386

Cable Circuits as Used in the Study of Transient Heat Flow, The Accuracy of Measurements in Lumped. Paschkis, Heister ..... 165–71; disc. 426

Cable Circuits, Impulse Strength of Insulated-Power. Halperin, Shanklin ..... 1190–7; disc. 1386

Cable—It's Causes and Effects on Cable-Sheath Life, Cyclic Movement of. Schifreen ..... 1121–30; disc. 1388

Cable Lines in Los Angeles, New 138-Kv. Mansfield ..... 1240–9; disc. 1479

Cable, Operation of Low-Pressure Gas-Filled. Hatcher ..... 788–92; disc. 1399

Cable, Requirements for Low-Voltage Aircraft. Hedges ..... 808–09; disc. 1473

Cable Sheaths and Experience, Gas-Filled. Shanklin ..... 549–53; disc. 1399

Cable-Sheath Life, Cyclic Movement of Cable—Its Causes and Effects on. Schifreen ..... 1121–30; disc. 1388

Cable Used for Transmitting Electric Energy in Airplanes. Peters, Phillips, Kromstein, Jesiour ..... 1270–82; disc. 1474

Cables as Affected by Mutual Heating in Air or Conduit, Current Rating of. (IPCEA Committee Report) ..... 354–65; disc. 424, 1352

Cables in Ducts, An Investigation of the Relationship Between Temperature and Movement of. Nicholson, Brosnan ..... 723–8; disc. 1388

Calculating Short-Circuit Forces Between Channels Located Back to Back, Formulas for. Higgins 710–12

Calculation of Unbalanced Voltage Drops in Distribution Circuits With Particular Reference to Multigrounded Neutrals. Bullard, Lowe, Waldauer 145–8

Calculation Procedure for Electric-Panel Space Heating, Load-. Raber, Hutchinson ..... 1085–91; disc. 1432

Calculations, Impedance of 400-Cycle Three-Phase Power Circuits on Large Aircraft and Its Application to Fault-Current. Chappuis, Olmsted ..... 1213–20; disc. 1496

Capacitor, A New High-Frequency. Allison, Beverly ..... 919–16; disc. 1464

Capacitor—an Aid to Electric-Power Service for Pipe Lines, The. Hyde, Marbury ..... 567–95; disc. 476

Capacitor Banks and Its Application, Automatic Control and Switching Equipment for. Schroeder, Bloomquist ..... 649–54; disc. 1440

Capacitor-Discharge Resistance Welding, An Improved Electronic Control for. Bichsel, Hughes ..... 1150–7; disc. 1384

Capacitor Installation at Newport News. Parrack, Harder ..... 1165–73; disc. 1378

Capacitors by Means of Automatic Switching, Extending the Use of Shunt. Cuttino ..... 674–8; disc. 1439

Capacitors, Characteristics of Chlorinated Impregnants in D-C Paper. Berberich, Fields, Marbury ..... 1173–9; disc. 1437

Capacitors, Condensers, and System Stability. Butler, Schroeder, Ridgway ..... 1130–8; disc. 1378

Capacity, The Evolution of Standard Lines of Current Transformers for High Overcurrent. Wentz ..... 658–62; disc. 1426

Carbon Brushes, New Test Chambers for Aircraft Electric Apparatus With Particular Reference to. Summers, Settle ..... 1205–12; disc. 1491

Carbon-Pile Voltage Regulators for Aircraft. Neild ..... 839–43; disc. 1460

Cargo-Winch Control for Use on Victory Ships, Modern. Holt ..... 625–8; disc. 1411

Carrier-Current Relay Schemes, The Functions of Ground Preference in. Leyland, Goldsborough ..... 97–100; disc. 437

Carrier Relaying Scheme, The MHO-. Cordray, Warrington ..... 228–35; disc. 434

Carrier Relaying System, A New. Halman, Goldsborough, Lenaner, Dromp ..... 568–72; disc. 1423

Carrier System, A Versatile Power-Line. Lenner, Singel ..... 129–33; disc. 437

Casting of Metals by Electromagnetic Forces, Treatment and. Hoke 986–92

Cavity Method for Measuring Dielectric Properties at Ultrahigh Frequencies, A Resonant-. Works, Dakin, Boggs ..... 1092–8; disc. 1452

Cell Lighting, Airplane Engine and Propeller Test-. Tuck ..... 1264–70; disc. 1493

Chambers for Aircraft Electric Apparatus With Particular Reference to Carbon Brushes, New Test. Summers, Settle ..... 1205–12; disc. 1491

Changer, Design of Frequency. Will as, Wilkis, Kuenning, Christensen, Bedford ..... 1070–8; disc. 1415

Channels Located Back to Back, Formulas for Calculating Short-Circuit Forces Between. Higgins 710–12

Characteristics and Application to Induction-Heating Problems, Vacuum-Tube Radio-Frequency Generator—. Kinn ..... 1290–1303; disc. 1500

Characteristics of Chlorinated Impregnants in D-C Paper Capacitors, Berberich, Fields, Marbury ..... 1173–9; disc. 1437

Characteristics of Modern Dry-Type Air-Cooled Transformers, Design and Operating. Satterlee ..... 701–04; disc. 1445

Characteristics, Steady-State Stability of Synchronous Machines as Affected by Voltage-Regulator. Concordia ..... 215–20; disc. 489

Charts, Current-Transformer Output and Application. Koller ..... 573–7; disc. 1422

Charts, Diesel-Electric Switching-Locomotive Application by Means of Nomographic. Millan, Perkinson 45–7

Chlorinated Impregnants in D-C Paper Capacitors, Characteristics of. Berberich, Fields, Marbury ..... 1173–9; disc. 1437

Circuit Breaker for 15,000-Volt Services, A Magnetic-Type Air. Linde, Wyman ..... 140–4; disc. 453

Circuit Breaker for Steel-Mill Service, A 500,000-Kva 7.5-Kv Air. Dickinson ..... 242–5; disc. 450

Circuit Breaker, Tests of 230-Kv High-Speed Reclosing Oil. Schwager ..... 784–8; disc. 1468

Circuit Breakers, A Pneumatic Mechanism for Outdoor Oil. Linde, Rietz ..... 543–6; disc. 1428

Circuit Breakers for Rapid Reclosing Duty, High-Voltage Oil. Hill, Leedi ..... 113–18; disc. 452

Circuit Breakers, Improved Selective Tripping of Low-Voltage Air. West ..... 608–10; disc. 1431

Circuit Breakers, Protection of Large D-C Machines by Means of High-Speed. Housley, Jensen ..... 637–40; disc. 1428

Circuit Breakers, The Degree of Short-Circuit Protection Afforded Small Low-Voltage A-C and D-C Starters by Means of Fuses and. Jones ..... 611–12; disc. 1408

Circuit Burning-Clear and Damage Phenomena on Aircraft Structures, Electric-. Foust, Hutton ..... 198–204; disc. 457

Circuit Duty, Rectifier- Heinkind 123–9

Circuit Fault-Protective Principles as Applied to D-C Aircraft Systems, Electric-. Kaufmann ..... 333–44; disc. 462

Circuits, A Graphical Analysis of the Voltage and Current Wave Forms of Controlled Rectifier. Chie, Moyer 501–08

Circuits, Analysis of High-Frequency Ignition. Robinson 915–19

Circuits, Analysis of Rectifier. Charlesworth, Willis, Herskind 1048–58
Circuits and the Magnetic Compass, Electric. Burt, Beck 24–6
Circuits as Used in the Study of Transient Heat Flow, The Accuracy of Measurements in Lumped R-C Cable. Paschkis, Heisler ..... 165–71; disc. 426
Circuits, Impulse Strength of Insulated-Power-Cable. Halperin, Shanklin ..... 1190–7; disc. 1386
Circuits on Large Aircraft and Its Application to Fault-Current Calculations, Impedance of 400-Cycle Three-Phase Power. Chappuis, Olmsted ..... 1213–20; disc. 1496
Circuits, Voltage Transients in Arc-Furnace. (Committee Report) ..... 563–8; disc. 1435
Circuits With Particular Reference to Multigrounded Neutrals, Calculation of Unbalanced Voltage Drops in Distribution. Bullard, Lowe, Wahliquist 145–8
Clothing, Electrically Heated. Wotring 1304–13
Clutch and Its Associated Brake Used on Aircraft Electric Motors, One Type of Rotary Magnetic. Andrews, Shanely ..... 893–5; disc. 1477
Cockpit Lighting, The Scientific Basis for the New British System of. Calvert 869–70
Coil Power-Factor Meters, Crossed-. Millar ..... 294–301; disc. 460
Coils for Airplane-Engine Ignition Systems, Battery Booster. Alvino ..... 672–3; disc. 1381
Coils, Insulation Temperature Standards for Industrial-Control. Erikson ..... 546–8; disc. 1408
Coils of Small Cross Section, The Computation of Magnetic Field Strength of Round. Dwight, Peters 684–5
Commercial-Airline Aircraft, Lighting Required for. Petrasek ..... 593–8; disc. 1436
(Committee Report) Bibliography of Relay Literature 1940–1943 705–09
(Committee Report. IPCEA) Current Rating of Cables as Affected by Mutual Heating in Air or Conduit ..... 354–63; disc. 424, 1352
(Committee Report) Voltage Transients in Arc-Furnace Circuits ..... 563–8; disc. 1435
Committees for 1944–45, Officers and 1532–7
(Communication) A Short-Cut Method of Estimating Telephone-Influence Factor of Power Systems With Rectifier Load. Feick 91–6
(Communication) American Telegraphy After 100 Years. d'Humy, Howe ..... 1014–32; disc. 1386
(Communication) Automatic Ticketing of Telephone Calls. Friend ..... 81–8; disc. 472
(Communication) Crossbar Toll Switching System. Abrahams, Busch, Shipley ..... 302–09; disc. 473
(Communication) Fundamentals of Hearing-Aid Design. Penn 744–9
(Communication) Telegraphy in the Bell System. Duncan, Parker, Pierce ..... 1032–44; disc. 1386
Communications, Developments in the Field of Cable and Radiotelegraph. Pratt, Roosevelt ..... 1044–7; disc. 1386
Compass, Electric Circuits and the Magnetic. Burt, Beck 24–6
Compass, The Gyrosyn. Eaval ..... 857–60; disc. 1502
Components Analysis of the Four-Phase System, Symmetrical-. Boyajian ..... 48–51; disc. 426
Compressed-Gas Power Transformers, High-Voltage. Hobart ..... 690–2; disc. 1448
Computation of Magnetic Field Strength of Round Coils of Small Cross Section, The. Dwight, Peters 684–5
Condensers, and System Stability, Capacitors. Butler, Schroeder, Ridgway ..... 1130–8; disc. 1378
Conditions Controlling the Economic Selection of Prime Movers. Sarotski ..... 1099–1100; disc. 1360
Conditions, Operation of Rectifiers Under Unbalanced. Christensen, Morack 628–31
Conditions, Potential Breakdown of Small Gaps Under Simulated High-Altitude. DeLerno ..... 109–12; disc. 456
Conditions, The Testing of Brushes for Life and Performance Under Various Altitude. Herman ..... 929–33; disc. 1491
Conditions, Thermal Protection of Transformers Under Overload. Monininger, Camilli ..... 160–4; disc. 444
Conductors by Magnetic Induction—Longitudinal Flux, Heating of Nonmagnetic Electric. Baker 273–8
Conduit, Current Rating of Cables as Affected by Mutual Heating in Air or. (IPCEA Committee Report) ..... 354–65; disc. 424, 1352
Connections on Aircraft, Electric. Stebbins, Taylor ..... 906–11; disc. 1473
Connectors, Historical Development of Electric. Neifing 925–8
Consideration of Power-Distribution-System Costs, A Method of Approach to the. Falls ..... 1078–84; disc. 1377
Considerations for D-C Aircraft Generators, Design. Miner ..... 1234–40; disc. 1459
Considerations in Aircraft Instruments to Meet War Service, Design. Savage, Whittenton ..... 992–8; disc. 1419
Considerations in Servomechanism Design. Herwald 871–6
Considerations in the Selection of Generators and Batteries for Aircraft, Basic. Cobb, Wisters ..... 889–93; disc. 1494
Considerations of 400-Cycle Aircraft Motors, Design. Sawyer ..... 877–9; disc. 1464
Constants of 270-Mile 154-Kv Transmission Line, Measured Electrical. Streifus, Roadhouse, Gow ..... 538–42; disc. 1351
Contactors for Aircraft, A-C. Russell, Charbonneau ..... 613–16; disc. 1364
Contacts, The Vibration of Electric. Russell, Keilien ..... 153–5; disc. 478
Control and Switching Equipment for Capacitor Banks and Its Application, Automatic. Schroeder, Bloomquist ..... 649–54; disc. 1440
Control, Application of Electronics to Aircraft Flight. Gille, Kutzler ..... 849–53; disc. 1501
Control Coils, Insulation Temperature Standards for Industrial-. Erikson ..... 546–8; disc. 1408
Control for an Electronic Power Converter, Switchgear and. Gittings, Bateman ..... 585–8; disc. 1413
Control for Capacitor-Discharge Resistance Welding, An Improved Electronic. Bichsel, Hughes ..... 1150–7; disc. 1384
Control for the World's Most Modern Steel Mill, Supervisory. Garrett, Reagan 259–64
Control for Use on Victory Ships, Modern Cargo-Winch. Holt ..... 623–8; disc. 1411
Control in Automatic Pilots, Electrical. Young, Lynch, Bonton ..... 939–43; disc. 1500
Control in the Manufacture of Aircraft Generators, Aids to Quality. Potter ..... 525–9; disc. 1358
Control, Inverter Action on Reversing of Thyratron Motor. Palmer, Leigh ..... 175–84; disc. 494
Control Shunted-Armature Connection for a D-C Shunt Motor, Industrial. Leland, Rader ..... 617–19; disc. 1410
Control Valves, Solenoid-Operated. Eckel, Wiegarven 911–14
Controlled Dry-Disk Rectifier, Electronically. Rosenstein, Barnett ..... 21–3; disc. 474
Controlling the Economic Selection of Prime Movers, Conditions. Sarotski ..... 1099–1100; disc. 1360
Converter for Exchange of Power, The Electronic. Kramer, Morton, Darling ..... 1059–65; disc. 1413
Converters, History and Development of the Electronic Power. Alexanderson, Phillips ..... 634–7; disc. 1413
Converter, Switchgear and Control for an Electronic Power. Gittings, Bateman ..... 585–8; disc. 1413
Converters, Pentode Ignitrons for Electronic Power. Steiner, Zehner, Zuvers ..... 693–7; disc. 1413
Cooling for Aircraft Generators, Blast-Tube. Veinott ..... 520–5; disc. 1463
Copper Mines, Electrification of Large Open-Pit. Birch ..... 30–8; disc. 433
Copper-Oxide Rectifier in Electrochemical Work, The. Smith ..... 739–44; disc. 1438
Corona in Aircraft Electric Systems as a Function of Altitude. Wilson ..... 189–94; disc. 457
Costs, A Method of Approach to the Consideration of Power-Distribution-System. Falls ..... 1078–84; disc. 1377
Costs Study of 69- to 345-Kv Overhead Power-Transmission Systems. Holm 406–22
Cranes, A New Electric Hoist Drive for. Whiting 59–64
Crossbar Toll Switching System. Abrahams, Busch, Shipley ..... 302–09; disc. 473
Crossed-Coil Power-Factor Meters. Millar ..... 294–301; disc. 460
Cultural Training of the Engineer. Boyajian ..... 6–9; disc. 478
Current-Limiting Power Fuse, A New Three-Element. Rawlins, Fahnoe ..... 156–9; disc. 451
Current Rating of Cables as Affected by Mutual Heating in Air or Conduit. (IPCEA Committee Report) ..... 354–65; disc. 424, 1352
Current-Transformer Errors by the Secondary-Voltage Method, Field Determination of. Goodale, Holbeck ..... 879–82; disc. 1468
Current-Transformer Output and Application Charts. Koller ..... 573–7; disc. 1422
Current Transformers for High Overcurrent Capacity, The Evolution of Standard Lines of. Wentz ..... 658–62; disc. 1426
Current Wave Forms of Controlled Rectifier Circuits, A Graphical Analysis of the Voltage and. Ohio Mower 501–08
Current-Zero Phenomena, The Geometry of Arc Interruption—II. Boehne ..... 375–87; disc. 447
Currents, An Instrument for the Measurement of Large Alternating. Richter 38–40
Currents and Influence on System Operation, Transformer Magnetizing Inrush. Blume, Camilli, Farnham, Peterson ..... 366–75; disc. 423
Currents Determined Easily on D-C Board, System Voltages and Fault. Asbury ..... 164–8; disc. 439
Currents in Direct Strokes, The Measurement of Lightning. McCann ..... 1157–64; disc. 1370
Curves, The Summation of Load. Hamilton ..... 729–35; disc. 1361
Cutout, An Aircraft Differential-Voltage. Walley ..... 632–4; disc. 1365
Cyclic Movement of Cable—Its Causes and Effects on Cable-Sheath Life. Schifreen ..... 1121–30; disc. 1388
Cylinders for Aircraft Gyroscopes, Damping. Sisz, Wright 979–85

D

Damage Phenomena on Aircraft Structures, Electric-Circuit Burning-Clear and. Foust, Hutton ..... 198–204; disc. 457
Damping Cylinders for Aircraft Gyroscopes. Sisz, Wright 979–85
Deflection A-C Potentiometer, A Multiplied-. Marshall ..... 77–80; disc. 460
Deformation on Turbogenerators, Prevention of Rotor-Winding. Noest ..... 514–19; disc. 1353
Degree of Short-Circuit Protection Afforded Small Low-Voltage A-C and D-C Starters by Means of Fuses and Circuit Breakers, The. Jones ..... 611–12; disc. 1408
Design and Operating Characteristics of Modern Dry-Type Air-Cooled Transformers. Satterlee ..... 701–04; disc. 1445
Design Considerations for D-C Aircraft Generators. Miner ..... 1234–40; disc. 1459
Design Considerations in Aircraft Instruments to Meet War Service. Savage, Whittenton ..... 992–8; disc. 1419
Design, Considerations in Servomechanism. Herwald 871–6
Design Considerations of 400-Cycle Aircraft Motors. Sawyer ..... 877–9; disc. 1464
Design Features of Generators for Diesel-Electric Switcher Locomotives. Atwell ..... 41–5; disc. 433
Design Method for D-C Machines, A. Beers, Karr ..... 172–5; disc. 497
Design of Aircraft Electric Actuator Equipment, Functional. Gagnier ..... 813–15; disc. 1464
Design of an Electronic Frequency Changer. Willis, Kuenning, Christensen, Bedford ..... 1070–8; disc. 1413
Design of an Ignition System for an 18-Cylinder Aircraft Engine. Harkness ..... 1321–7; disc. 1467
Design of Low-Voltage-Welding Power Distribution, The. Adams, Fetcher, Johnson ..... 1180–90; disc. 1382
Design of Starting Windings for Split-Phase Motors. Lloyd, Karr 9–13
Design of Systems for Load Growth, The Effect of Kilovar Supply on the. Schroeder, Butler, Meyers ..... 69–77; disc. 492
Design of Variac Transformers. Karplus 508–13
Design Trends of Electrical Instruments, Influence of Improved Magnetic Alloys on. Wilson, Whittenton ..... 100–04; disc. 461
Determination of Current-Transformer Errors by the Secondary-Voltage Method, Field. Goodale, Holbeck ..... 879–82; disc. 1468
Development of Aircraft Position Lights, The. Vitol ..... 796–8; disc. 1493
Development of Electric Connectors, Historical. Neifing 925–8
Development of Exciturn-Type Rectifier. Winograd ..... 969–78; disc. 1454
Development of the Electronic Power Converter, History and. Alexanderson, Phillips ..... 634–7; disc. 1413
Developments in Light Sources, Recent. Millar. 1505–17
Developments in the Field of Cable and Radiotelegraph Communications. Pratt, Roosevelt ..... 1044–7; disc. 1386
Developments on British Aircraft, Brief Survey of Power-Supply. Carter ..... 806–07; disc. 1503
Dielectric Properties at Ultrahigh Frequencies, A Resonant-Cavity Method for Measuring. Dakin, Bogel ..... 1092–8; disc. 1452
Diesel-Electric Switcher Locomotives, Design Features of Generators for. Atwell ..... 41–5; disc. 433
Diesel-Electric Switching-Locomotive Application by Means of Nonomographic Charts. Millan, Perkinson ..... 221–8; disc. 429
Differential Analyzer, A New. Kuehni, Peterson 45–7
Differential Generator Control Relay for D-C Aircraft Electric Systems, Crever 589–93
Differential Leakage With Respect to the Fundamental Wave and to the Harmonics, Liwschitz 1139–50
Differential-Voltage Cutout, An Aircraft. Walley ..... 632–4; disc. 1365
Dimensional Studies of Lightweight Motors for Aircraft. Morrill 698–701
D-C Aircraft Electric-Supply Systems, Present. Anderson, Crary, Schultz ..... 265–72; disc. 484
D-C Aircraft Electric System, A 120-Volt. Cobb ..... 1327–34; disc. 1498
D-C Aircraft Electric Systems, Differential Generator Control Relay for. Crever 589–93
D-C Aircraft Electric Systems, Higher-Voltage. Berry, Dallas ..... 843–9; disc. 1497
D-C Aircraft Generators, Design Considerations for. Miner ..... 1234–40; disc. 1459
D-C Aircraft Motors, Inherent Overheating Protection of. Veinott 920–5
D-C Aircraft Systems, Electric-Circuit Fault-Protective Principles as Applied to. Kaufmann ..... 333–44; disc. 483
D-C Arc Interruption for Aircraft, Quill. Rader ..... 883–8; disc. 1472
D-C Arc Interruption for Aircraft, Peak Voltages With. Phillips, Mitchel 844–9

D-C Board, System Voltages and Fault Currents Determined Easily on. Asbury.....184–8; disc. 439
Direct Current for Aircraft-Radio Power Supply, Alternating Versus. Fritz, Hooper.....1227–35; disc. 1466
D-C Generators in Multiengine Aircraft, Paralleling and Regulation of 24–28-Volt. Siegal, DeCourcey.....854–7
D-C Machines, A Design Method for. Beers, Karr.....172–5; disc. 497
D-C Machines by Means of High-Speed Circuit Breakers, Protection of Large. Housley, Jensen.....637–40; disc. 1428
D-C Motors, Behavior Factors of Rectifier-Driven. Siegfried.....530–3; disc. 1357
D-C Paper Capacitors, Characteristics of Chlorinated Impregnants in. Berberich, Fields, Marbury.....1173–9; disc. 1437
D-C Shunt Motor, Industrial Control—Shunted-Armature Connection for a. Leland, Rader.....617–19; disc. 1410
Direct Strokes, The Measurement of Lightning Currents in. McCann.....1157–64; disc. 1370
Discharge Lamps for Airplane Lighting Service, Gaseous. Beggs.....760–2; disc. 1456
Discharge Resistance Welding, An Improved Electronic Control for Capacitor-. Bichsel, Hughes.....1150–7; disc. 1384
Distance Relay With Adjustable Phase-Angle Discrimination, A. Goldsborough.....835–8; disc. 1471
(Distribution) A Short-Cut Method of Estimating Telephone-Influence Factor of Power Systems With Rectifier Load. Frick.....91–6
(Distribution) An Investigation of the Relationship Between Temperature and Movement of Cables in Ducts. Nicholson, Brosnan.....723–8; disc. 1388
Distribution Circuits With Particular Reference to Multigrounded Neutrals, Calculation of Unbalanced Voltage Drops in. Bullard, Lowe, Wahlquist.....145–8
(Distribution) Current Rating of Cables as Affected by Mutual Heating in Air or Conduit. (IPCEA Committee Report).....354–65; disc. 424, 1352
(Distribution) Cyclic Movement of Cable—Its Causes and Effects on Cable-Sheath Life. Schifreen.....1121–30; disc. 1388
(Distribution) Gas-Filled-Cable Research and Experience. Shanklin.....549–53; disc. 1399
(Distribution) Impulse Strength of Insulated-Power-Cable Circuits. Halperin, Shanklin.....1190–7; disc. 1386
(Distribution) New 138-Kv Cable Lines in Los Angeles. Mansfield.....1240–9; disc. 1479
(Distribution) Operation of Low-Pressure Gas-Filled Cable. Hatcher.....788–92; disc. 1399
Distribution-System Costs, A Method of Approach to the Consideration of Power-. Falls.....1078–84; disc. 1377
Distribution Systems, Fault Protection on Shipboard A-C Power-. Rickover, Ross.....1109–20; disc. 1429
Distribution Systems, Fusing Practices on. Parsons, Wallace.
Part I.....89–91; disc. 467
Part II.....598–600; disc. 1429
Distribution, The Design of Low-Voltage-Welding Power. Adams, Fetcher, Johnson.....1180–90; disc. 1382
(Distribution) The Effect of Kilovar Supply on the Design of Systems for Load Growth. Schroeder, Butler, Meyers.....69–77; disc. 492
(Domestic and Commercial Applications) Electrothermal Space Heating and Air Conditioning. Krueger.....718–22; disc. 1434
(Domestic and Commercial Applications) Load-Calculation Procedure for Electric-Panel Space Heating. Raber, Hutchinson.....1085–91; disc. 1432
(Domestic and Commercial Applications) Possibilities of Heat Pumps for Heating Homes. Berry.....619–22; disc. 1433
(Domestic and Commercial Applications) The Vibration of Electric Contacts. Russell, Keilien.....153–5; disc. 478
Drive for Cranes, A New Electric Hoist. Whiting.....59–64
Driven Gyroscopes for Aircraft, Electrically. Witherow, Hansen.....204–08
Drops in Distribution Circuits With Particular Reference to Multigrounded Neutrals, Calculation of Unbalanced Voltage. Bullard, Lowe, Wahlquist.....145–8
Dry-Disk Rectifier, Electronically Controlled. Rosenstein, Barnett.....71–3; disc. 474
Dry-Type Air-Cooled Transformers, Design and Operating Characteristics of Modern. Satterlee.....701–04; disc. 1445
Dry-Type Transformer Windings, Hot-Spot Temperatures in. Stewart, Whitman.....763–8; disc. 1445
Ducts, An Investigation of the Relationship Between Temperature and Movement of Cables in. Nicholson, Brosnan.....723–8; disc. 1388
Duty, High-Voltage Oil Circuit Breakers for Rapid Reclosing. Hill, Leeds.....113–18; disc. 452
Duty, Rectifier-Circuit. Herskind.....125–8

E

Economic Selection of Prime Movers, Conditions Controlling the. Skrotzki.....1099–1108; disc. 1360
Economics of Trolley-Coach Operation. Woods.....578–81; disc. 1451
(Education) Cultural Training of the Engineer. Boyajian.....6–9; disc. 478
Effect of Altitude on Electric Breakdown and Flashover of Aircraft Insulation. Berberich, Moses, Stiles, Veinott.....545–54; disc. 458
Effect of Altitude on Impulse and 60-Cycle Strength of Electrical Apparatus. Bellaschi, Evans.....236–41; disc. 442
Effect of Kilovar Supply on the Design of Systems for Load Growth, The. Schroeder, Butler, Meyers.....69–77; disc. 492
Effect of Weather on the System Load, The. Dryar.....1006–13; disc. 1364
Eight-Year Investigation of Lightning Currents and Preventive Lightning Protection on a Transmission System, An. Hansson, Waldorf.....251–8; disc. 463, 1350
18-Cylinder Aircraft Engine, Design of an Ignition System for an. Harkness.....1321–7; disc. 1467
Electric Actuator Equipment, Functional Design of Aircraft. Gagnier.....813–15; disc. 1464
Electric-Accessory-Vibration Investigations, Aircraft-. Müller.....1283–90; disc. 1486
Electric Aircraft Motors, Problems in Applying Protectors to. Buell.....1203–8
Electric Apparatus, Altitude Rating of. Lebenbaum.....955–60; disc. 1485
Electric Apparatus With Particular Reference to Carbon Brushes, New Test Chambers for Aircraft. Summers, Settle.....1205–12; disc. 1491
Electric Automatic Pilots for Aircraft. Halpert, Esval.....861–6; disc. 1501
Electric-Circuit Burning-Clear and Damage Phenomena on Aircraft Structures. Foust, Hutton.....198–204; disc. 457
Electric-Circuit Fault-Protective Principles as Applied to D-C Aircraft Systems. Kaufmann.....333–44; disc. 482
Electric Circuits and the Magnetic Compass. Burt, Beck.....24–6
Electric Conductors by Magnetic Induction—Longitudinal Flux, Heating of Nonmagnetic. Baker.....273–8
Electric Connections on Aircraft. Stebbins, Taylor.....906–11; disc. 1473
Electric Connectors, Historical Development of. Neifing.....925–8
Electric Contacts, The Vibration of. Russell, Keilien.....153–5; disc. 478
Electric Energy in Airplanes, Cables Used for Transmitting. Peters, Phillips, Kronstein, Jealous.....1270–82; disc. 1474
Electric Equipment for the War Emergency Pipe-Line Projects. Thomas, Taylor, Wolfe.....396–405
Electric-Equipment Maintenance, Airline Aircraft. Petrash.....900–05
Electric Gun Turrets for Aircraft. Thompson.....799–802; disc. 1475
Electric Hoist Drive for Cranes, A New. Whiting.....59–64
Electric Loadings, Transmission-Line. Crary.....1198–1204; disc. 1373
Electric Locomotives in Open-Pit Mine Haulage, Modern. Borland, Riley.....52–8; disc. 433
Electric Machinery, The Nature of Vibration in. Graybeal.....712–18; disc. 1458
Electric Motors, One Type of Rotary Magnetic Clutch and Associated Brake Used on Aircraft. Andrews, Shanely.....893–5; disc. 1477
Electric Motors, Requirements for Aircraft. Siefkin.....810–13
Electric-Panel Space Heating, Load-Calculation Procedure for. Raber, Hutchinson.1085–91; disc. 1432
Electric-Power Service for Pipe Lines, The Capacitor—an Aid to. Hyde, Marbury.....387–95; disc. 476
Electric-Supply Systems, Present D-C Aircraft. Anderson, Crary, Schultz.....265–72; disc. 484
Electric System, A 120-Volt D-C Aircraft. Cobb.....1327–34; disc. 1495
Electric Systems as a Function of Altitude, Corona in Aircraft. Wilson.....189–94; disc. 457
Electric Systems, Differential Generator Control Relay for D-C Aircraft. Crever.....589–93
Electric Systems for Large Aircraft, Basic Considerations in Selection of. Boice, Levoy.....879–87; disc. 478
Electric Systems, Higher-Voltage D-C Aircraft. Berry, Dallas.....843–9; disc. 1497
Electric Systems, Instrumentation of 400-Cycle Aircraft. Corson, Stinson, Soley.....830–5; disc. 1501
(Electric Welding) Rating of Electric Equipment Under Intermittent Load. Zucker.....778–83; disc. 1381
Electric-Wiring Installations in British Aircraft. Horn.....896–900
Electrical Apparatus, Effect of Altitude on Impulse and 60-Cycle Strength of. Bellaschi, Evans.....236–41; disc. 442
Electrical Constants of 270-Mile 154-Kv Transmission Line, Measured. Sarchet, Roadhouse, Gow.....538–42; disc. 1391
Electrical Control in Automatic Pilots. Young, Lynch, Boynton.....939–43; disc. 1500
Electrical Horizons, Aircraft. Gedney, Berry, Holliday.....821–4; disc. 1503
(Electrical Machinery) A Design Method for D-C Machines. Beers, Karr.....172–5; disc. 497
(Electrical Machinery) A Graphical Analysis of the Voltage and Current Wave Forms of Controlled Rectifier Circuits. Chin, Moyer.....501–08
(Electrical Machinery) Asymmetrical Loading of Three Phase Three-Winding Transformer Banks. Denisov.....27–9; disc. 444
(Electrical Machinery) Behavior Factors of Rectifier-Driven D-C Motors. Siegfried.....530–3; disc. 1357
(Electrical Machinery) Design and Operating Characteristics of Modern Dry-Type Air-Cooled Transformers. Satterlee.....701–04; disc. 1445
(Electrical Machinery) Design of Starting Windings for Split-Phase Motors. Lloyd, Karr.....9–13
(Electrical Machinery) Design of Variac Transformers. Karplus.....508–13
(Electrical Machinery) Differential Leakage With Respect to the Fundamental Wave and to the Harmonics. Liwschitz.....1139–50
(Electrical Machinery) High-Voltage Compressed-Gas Power Transformers. Hobart.....690–2; disc. 1448
(Electrical Machinery) Hot-Spot Temperatures in Dry-Type Transformer Windings. Stewart, Whitman.....763–8; disc. 1445
(Electrical Machinery) Industrial Control—Shunted-Armature Connection for a D-C Shunt Motor. Leland, Rader.....617–19; disc. 1410
(Electrical Machinery) Insulation Temperature Standards for Industrial-Control Coils. Erikson.....546–8; disc. 1408
(Electrical Machinery) Interlamination Resistance. Barton.....670–2
(Electrical Machinery) Inverter Action on Reversing of Thyratron Motor Control. Palmer, Leigh.....1179–84; disc. 694
(Electrical Machinery) Modern Cargo-Winch Control for Use on Victory Ships. Holt.....623–8; disc. 1141
(Electrical Machinery) Overloading of Transformers—Cases Not Covered by the General Rules. Sealey, Hodtum.....149–53; disc. 443
(Electrical Machinery) Prevention of Rotor-Winding Deformation on Turbogeneratora. Noest.....514–19; disc. 1353
(Electrical Machinery) Progress in Impulse Testing of Transformers. Hagengruh.....999–1005; disc. 1440
(Electrical Machinery) Some Aspects of Electric-Motor Design—Polyphase-Induction-Motor Design to Meet Fixed Specifications. Lloyd.....14–20; disc. 498
(Electrical Machinery) Starting Windings for Single-Phase Induction Motors. Veinott.288–94; disc. 499
(Electrical Machinery) The Asymmetrical Stator as a Means of Starting Single-Phase Induction Motors. Baum.....245–50; disc. 496
(Electrical Machinery) The Degree of Short-Circuit Protection Afforded Small Low-Voltage A-C and D-C Starters by Means of Fuses and Circuit Breakers. Jones.....611–12; disc. 1451
(Electrical Machinery) The Evolution of Standard Lines of Current Transformers for High Overcurrent Capacity. Wentz.....658–62; disc. 1426
(Electrical Machinery) Thermal Protection of Transformers Under Overload Conditions. Montsinger, Camilli.....160–4; disc. 444
(Electrical Machinery) Transformer Magnetizing Inrush Currents and Influence on System Operation. Blume, Camilli, Farnham, Peterson.....366–75; disc. 423
(Electrical Machinery) Transient Performance of Induction Motors. Maginnis, Schultz.641–6; disc. 1458
Electrically Driven Gyroscopes for Aircraft. Witherow, Hansen.....204–08
Electrically Heated Clothing, Working.....1288–93
Electrically Operated Gyroscopic Instruments. Konet.....735–8
Electricity on Aircraft Instrumentation, Influence of. Savage.....802–05; disc. 1501
Electricity, Plastics in Aircraft. Cooper.....1220–6
Electrification of Large Open-Pit Copper Mines. Birch.....30–8; disc. 433
Electrochemical Work, The Copper-Oxide Rectifier in. Smith.....739–44; disc. 1438
(Electrochemistry) Characteristics of Chlorinated Impregnants in D-C Paper Capacitors. Berberich, Fields, Marbury.....1173–9; disc. 1437
(Electrochemistry) Electronic Regulator for Arc Furnaces. Reilly, Valentine.....601–04
(Electrochemistry) Induction Heating—Selection of Frequency. Bansel.....755–9; disc. 1436
(Electrochemistry) Surface Heating by Induction. Sturm.....749–55
(Electrochemistry) Treatment and Casting of Metals by Electromagnetic Forces. Hoke.....986–92
(Electrochemistry) Vacuum-Tube Radio-Frequency Generator—Characteristics and Application to Induction-Heating Problems. Kina.1290–1303; disc. 1500

(Electrochemistry) Voltage Transients in Arc-Furnace Circuits (Committee Report).....563-8; disc. 1435
Electromagnetic Forces, Treatment and Casting of Metals by. Hoke.....986-92
Electronic Control for Capacitor-Discharge Resistance Welding, An Improved. Bichsel, Hughes.....1150-7; disc. 1384
Electronic Converter for Exchange of Power, The. Cramer, Morton, Darling.....1059-69; disc. 1413
Electronic Frequency Changer, Design of an. Willis, Kuenning, Christensen, Bedford.....1070-8; disc. 1413
Electronic Power Converter, History and Development of the. Alexanderson, Phillipi.....654-7; disc. 1413
Electronic Power Converter, Switchgear and Control for an. Gittings, Bateman.....585-8; disc. 1413
Electronic Power Converters, Pentode Ignitrons for. Steiner, Zehner, Zuvers.....693-7; disc. 1413
Electronic Regulator for Arc Furnaces. Reilly, Valentine.....601-04
Electronically Controlled Dry-Disk Rectifier. Rosenstein, Barnett.....21-3; disc. 474
(Electronics) Analysis of Rectifier Circuits. Christensen, Willis, Hershind.....1048-58
(Electronics) Development of Excitron-Type Rectifier. Winograd.....969-78; disc. 1454
(Electronics) Operation of Rectifiers Under Unbalanced Conditions. Christensen, Moore.....628-31
(Electronics) Rectifier-Circuit Duty. Hershind.123-8
Electronics to Aircraft Flight Control, Application of. Gille, Kutzler.....849-53; disc. 1501
Electrothermal Space Heating and Air Conditioning. Krueger.....718-22; disc. 1434
Elimination in Military Aircraft, Radio-Noise. Weinstein, Howell, Lowe, Winter.....793-5; disc. 1466
Elimination, Very High-Frequency Radio-Noise. Owen.....949-54
Emergency Pipe-Line Projects, Electric Equipment for the War. Thomas, Taylor, Wolfe.....396-405
Energy in Airplanes, Cables Used for Transmitting Electric. Peters, Phillips, Kronstein, Jealous.....1270-82; disc. 1474
Engine-Accessory Vibration, Aircraft. Tyler.....1334-49; disc. 1487
Engine and Propeller Test-Cell Lighting, Airplane. Tuck.....1264-70; disc. 1493
Engine, Design of an Ignition System for an 18-Cylinder Aircraft. Harkness.....1321-7; disc. 1467
Engineer, Cultural Training of the. Boyajian.....6-9; disc. 478
Equipment for Capacitor Banks and Its Application, Automatic Control and Switching. Schroeder, Bloomquist.....649-54; disc. 1440
Equipment for the War Emergency Pipe-Line Projects, Electric. Thomas, Taylor, Wolfe.....396-405
Equipment, Functional Design of Aircraft Electric Actuator. Gagnier.....813-15; disc. 1464
Equipment Maintenance, Airline Aircraft Electric. Petrasek.....900-05
Equipment Under Intermittent Load, Rating of Electric. Zucker.....778-83; disc. 1381
Errors by the Secondary-Voltage Method, Field Determination of Current-Transformer. Goodale, Holbeck.....879-82; disc. 1468
Evolution of Standard Lines of Current Transformers for High Overcurrent Capacity, The. Wentz.....658-62; disc. 1426
Exchange of Power, The Electronic Converter for. Cramer, Morton, Darling.....1059-60; disc. 1413
Excitron-Type Rectifier, Development of. Winograd.....969-78; disc. 1454
Extending the Use of Shunt Capacitors by Means of Automatic Switching. Cuttino.....674-8; disc. 1439

F

Factor Meters, Crossed-Coil Power-. Millar.....294-301; disc. 460
Fault-Current Calculations, Impedance of 400-Cycle Three-Phase Power Circuits on Large Aircraft and Its Application to. Chappuis, Olmsted.....1213-20; disc. 1496
Fault Currents Determined Easily on D-C Board, System Voltages and. Asbury.....184-8; disc. 439
Fault Protection on Shipboard A-C Power-Distribution Systems. Rickover, Ross.....1109-20; disc. 1429
Fault-Protective Principles as Applied to D-C Aircraft Systems, Electric-Circuit. Kaufmann.....333-44; disc. 482
Features of Generators for Diesel-Electric Switcher Locomotives, Design. Atwell.....41-5; disc. 433
Field Determination of Current-Transformer Errors by the Secondary-Voltage Method. Goodale, Holbeck.....879-82; disc. 1468
Field Strength of Round Coils of Small Cross Section, The Computation of Magnetic. Dwight, Peters.....684-6
15,000-Volt Service, A Magnetic-Type Air Circuit Breaker for. Linde, Wyman.....140-4; disc. 453
300,000-Kva 7.5-Kv Air Circuit Breaker for Steel-Mill Service, A. Dickinson.....242-5; disc. 450
Flashover of Aircraft Insulation, Effect of Altitude on Electric Breakdown and. Berberich, Moses, Stiles, Veinott.....345-54; disc. 458
Flight Control, Application of Electronics to Aircraft. Gille, Kutzler.....849-53; disc. 1501
Forces Between Channels Located Back to Back, Formulas for Calculating Short-Circuit. Higgins.710-12
Forces, Treatment and Casting of Metals by Electromagnetic. Hoke.....986-92
Formulas for Calculating Short-Circuit Forces Between Channels Located Back to Back. Higgins.710-12
Formulas for the Four-Terminal Network Parameters of Uniform Ladder Networks. LePage.....604-08
Fort Peck Project, Transmission and Relaying Problems on the. Floor, Muller, Goldsborough.....200-14; disc. 466
40-Kva 400-Cycle Aircraft Alternator, A. Kenyon, Veinott.....816-21; disc. 1460
400-Cycle Aircraft Electric Systems, Instrumentation of. Corson, Stimson, Soley.....830-5; disc. 1501
400-Cycle Three-Phase Power Circuits on Large Aircraft and Its Application to Fault-Current Calculations, Impedance of. Chappuis, Olmsted.....1213-20; disc. 1496
Four-Phase System, Symmetrical-Components Analysis of the. Boyajian.....648-51; disc. 436
Four-Terminal Network Parameters of Uniform Ladder Networks, Formulas for the. LePage.....604-08
Frequencies, A Resonant-Cavity Method for Measuring Dielectric Properties at Ultrahigh. Works, Dakin, Boggs.....1092-8; disc. 1452
Frequency Capacitor, A New High-. Allison, Beverly.....915-16; disc. 1464
Frequency Changer, Design of an Electronic. Willis, Kuenning, Christensen, Bedford.....1070-8; disc. 1413
Frequency Generator—Characteristics and Application to Induction-Heating Problems, Vacuum-Tube Radio-. Kinn.....1290-1303; disc. 1500
Frequency Ignition Circuits, Analysis of High-. Robinson.....916-19
Frequency, Induction Heating—Selection of. Stansel.....755-9; disc. 1436
Frequency Radio-Noise Elimination, Very High-. Owen.....949-54
Frequency Relay for Power-System Applications, A New. Carlin, Blackburn.....553-7; disc. 1421
Fuel Tanks, Totalizing Contents of Aircraft. Macintyre.....663-65; disc. 1419
Functional Design of Aircraft Electric Actuator Equipment. Gagnier.....813-15; disc. 1464
Functions of Ground Preference in Carrier-Current Relay Schemes, The. Leyland, Goldsborough.....97-100; disc. 437
Fundamental Wave and to the Harmonics, Differential Leakage With Respect to the. Liwschitz.1139-50
Fundamentals of Hearing-Aid Design. Penn.....744-9
Furnaces, Electronic Regulator for Arc. Reilly, Valentine.....601-04
Fuse, A New Three-Element Current-Limiting Power. Rawlins, Fahnoe.....136-9; disc. 451
Fuses and Circuit Breakers, The Degree of Short-Circuit Protection Afforded Small Low-Voltage A-C and D-C Starters by Means of. Jones.....611-12; disc. 1408
Fuses Must Protect, Aircraft. Lebens.581-5; disc. 1368
Fusing Practices on Distribution Systems. Parsons, Wallace.....
Part I.....89-91; disc. 467
Part II.....598-600; disc. 1429

G

Gaps Under Simulated High-Altitude Conditions, Potential Breakdown of Small. DeLerno.....109-12; disc. 456
Gas-Filled Cable, Operation of Low Pressure. Hatcher.....788-92; disc. 1399
Gas-Filled-Cable Research and Experience. Shanklin.....549-53; disc. 1399
Gas Power Transformers, High-Voltage Compressed-. Hobart.....690-2; disc. 1448
Gaseous-Discharge Lamps for Airplane Lighting Service. Beggs.....760-2; disc. 1456
Gear Ratio and Its Effect on Traction Motors. Woods.....65-8; disc. 433
Generating and Transmission Stations, Ring Buses for. Michelson, Galassini.....665-9; disc. 1372
Generator—Characteristics and Application to Induction-Heating Problems, Vacuum-Tube Radio-Frequency. Kinn.....1290-1303; disc. 1500
Generator Control Relay for D-C Aircraft Electric Systems, Differential. Crever.....589-93
Generators, Aids to Quality Control in the Manufacture of Aircraft. Potter.....525-9; disc. 1358
Generators and Batteries for Aircraft, Basic Considerations in the Selection of. Cobb, Winters.....889-95; disc. 1494
Generators, Blast-Tube Cooling for Aircraft. Veinott.....520-5; disc. 1463
Generators, Design Considerations for D-C Aircraft. Miner.....1334-40; disc. 1439
Generators for Diesel-Electric Switcher Locomotives, Design Features of. Atwell.....41-5; disc. 433
Generators in Multiengine Aircraft, Paralleling and Regulation of 24-28-Volt D-C. Siegal, DeCourcey.....854-7
Generators, Testing Aircraft. Keneipp.....105-09
Generators With Suddenly Applied Loads, Regulation of A-C. Harder, Chenk.....1014-18; disc. 1490
Geometry of Arc Interruption—II, The. Current-Zero Phenomena. Bochne.....375-87; disc. 447
Grand Coulee, An Analysis to Determine the Optimum Busing Arrangements and Transmission Capabilities. Hoard, Bills.....1259-64; disc. 1478
Graphical Analysis of the Voltage and Current Wave Forms of Controlled Rectifier Circuits, A. Chin, Moyer.....501-08
Ground Preference in Carrier-Current Relay Schemes, The Functions of. Leyland, Goldsborough.....97-100; disc. 437
Gun Turrets for Aircraft, Electric. Thompson.....799-802; disc. 1475
Gyroscopes, Damping Cylinders for Aircraft. Sias, Wright.....979-85
Gyroscopes for Aircraft, Electrically Driven. Witherow, Hansen.....204-08
Gyroscopic Instruments, Electrically Operated. Konet.....735-8
Gyroyn Compass, The. Eval.....857-60; disc. 1502

H

Harmonics, Differential Leakage With Respect to the Fundamental Wave and to the. Liwschitz.1139-50
Haulage, Modern Electric Locomotives in Open-Pit Mine. Borland, Riley.....52-8; disc. 433
Hearing-Aid Design, Fundamentals of. Penn.....744-9
Heat Pumps for Heating Homes, Possibilities of. Berry.....619-22; disc. 1433
Heated Clothing, Electrically. Wotring.....1304-13
Heating and Air Conditioning, Electrothermal Space. Krueger.....718-22; disc. 1434
Heating by Induction, Surface. Storm.....749-55
Heating in Air or Conduit, Current Rating of Cables as Affected by Mutual. (IPCEA Committee Report).....354-65; disc. 424, 1352
Heating, Load-Calculation Procedure for Electric-Panel Space. Raber, Hutchinson.....1085-91; disc. 1432
Heating of Nonmagnetic Electric Conductors by Magnetic Induction—Longitudinal Flux. Baker.....273-8
Heating Problems, Vacuum-Tube R-f—Frequency Generator—Characteristics and Application to Induction-. Kinn.....1290-1303; disc. 1500
Heating—Selection of Frequency, Induction. Stansel.....755-9; disc. 1436
High-Altitude Brush Problem. Ramadanoff, Glass.....825-30; disc. 1489
High-Altitude Conditions, Potential Breakdowns of Small Gaps Under Simulated. DeLerno.....109-12; disc. 456
High-Frequency Capacitor, A New. Allison, Beverly.....915-16; disc. 1464
High-Frequency Ignition Circuits, Analysis of. Robinson.....916-19
